Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A "Yellow Section" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.

Newton, the Garden City, covers an area of 18 square miles, has a population of 87,000, high civic standards, one of the best school systems in the country, and because of its close proximity to Boston, has unusual advantages as a place of residence.

The Newton Chamber of Commerce is an organized, co-operative agency to advance the civic, industrial, mercantile, and development interests of all the Newtons.

There are three types of Membership—Civic—Business—Sustaining.

This organization is only made possible through the wholehearted co-operation and support of the people of all the Newtons. Every Citizen should be a member.

Join Your Chamber of Commerce.

It renders constant, practical and effective service and welcomes inquiries at its offices conveniently located at

INTRODUCTION AND GENERAL INDEX

R. L. POLK & CO., publishers of more than 800 city, county, state and national Directories, present to subscribers and the general public, this, the 1955 edition of the Newton City Directory.

Confidence in the growth of Newton's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Newton to the world.

The enviable position occupied by R. L. POLK & CO'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Newton Directory will fulfill its mission as a source of authentic information pertaining to the city.

Seven Major Departments

The seven major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 8 to 21 on white paper, presents lists of city, county, state and federal officials; post office, public school and fraternal organization Directories; statistical review; historical sketch; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Newton, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE, separately paged on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Newton. The advertisement are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Newton, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

LIST OF STREETS BY POSTAL DISTRICTS is included on pink paper.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is on pink paper. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE NUMERICAL TELEPHONE GUIDE is included on pink paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Newton.

The Newton Directory Library

Through the courtesy of the publishers of the Newton City Directory, a Directory Library is maintained in the offices of the Chamber of Commerce, for limited free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

A Few Historical Facts

As early as 1631 Newton was settled and fortified. In those days Newton consisted of a large tract of land with a dwelling here and there, a most modest settlement, but the foundation, nevertheless, upon which rests the beautiful progressive city of today. King's Handbook of Newton states "the domain northward of the Charles was acquired from the Indian queen, the squaw-sachem, Nanepashemet's daughter, one of her perquisites being a new coat each winter as long as she lived."

Newton was incorporated a town in 1688 being called New Cambridge until 1692; and having outgrown town government by 1873; was chartered a city in that year.

During the war with the Indians the men of Newton left their homes and families and fought with the rest of the settlers. There is a stone in Nonantum, known as the Elliot memorial, which bears this inscription: "Here at Nonantum, Oct 28, 1624, in Waban's Wigwam near this spot, John Elliot began to preach the gospel to the Indians. Here he founded the first Christian community of Indians within the English colonies."

During the period of the Revolutionary War, the men of Newton rose with the other men of Massachusetts and shared the hardships that the crude army led by the great George Washington endured. And so history repeats itself down the ages. There are many beautiful monuments and ancient landmarks, silent tributes to the men who so nobly answered the call to arms, from the early days when the settlers fought with the Indians thru World War II.

Interesting Facts Regarding City

It is interesting to note just what Newton stands for to residents in other parts of the country. With its beautiful long avenues, its long lanes leading into beautiful wide parks, its streams and hills, its lovely gardens and artistic residences, it stands for prosperity and success. It signifies elegance and beauty, rather than fashion and display.

Although the march of time has brought changes to Newton in every part, though much of its barren land has been transformed into house lots and streets, though many of its old farm houses have been turned into modern dwellings, still Newton maintains an abundance of its natural beauty which has given it the name of the Garden City, widespread recognition as a City of beauty, a City of homes.

The Charles River winds its course along the northern and western boundaries for more than sixteen miles, adding utilized water power at its upper and lower falls and much beauty to the scenery for miles around. Newton has that same New England atmosphere which characterizes so many other Massachusetts cities, with its stable type of people whose interests are centered in their homes and the finer things of life. Each and every part of Newton typifies the modern "home City," a source of admiration to all visitors and of pride to its citizens.

Population

The best estimates of the present population of Newton indicates that it is approximately at the eighty-five thousand mark today. This shows a tremendous increase within the past decade. The steady stream of people who come to Newton yearly to make their homes here are of the thrifty, desirable sort, good citizens who soon blend into the social and civic life and share the pride of their neighbors in their adopted city.

Administration

The administration of Newton's city government is in the hands of safe and conservative executives, honest public-spirited citizens who have the best interests of the people at heart and in their minds. This is manifested by the high standards of administration which this city has always experienced.

Newton has a police department of 185 employees, giving it protection at all hours of the day and night. The fire department with 231 permanent men is always ready at hand to meet every emergency. Within recent years, all new modern fire apparatus has been installed.

Educational Opportunities

One factor which has always given Newton a high standing in the estimation of those looking for a good "home city" is its superb system of schools. Since the early days of 1699, when the first little school-house was built and John Staples became teacher, holding his scholastic sessions four days in each week for a stipend of two shillings a day, the school system of Newton has grown nobly.

Since those early days, Newton has developed tremendously along educational lines. Now there are high grade modern buildings, schools of the highest type for this purpose, with proper exits and due caution against fires and other emergencies. There are also new modern high schools, and the number of pupils that enter the high schools has increased appreciably within the last decade. There also are several very fine private schools. The Lasell Junior College with its beautiful spacious grounds, established 1851, has long been famous. This young ladies academy has admitted young women from all parts of the United States and several foreign countries.

Among other well known private schools within the city are Fessenden and Mount Ida Junior College. The higher institutions of learning are represented by Boston College, in the Chestnut Hill section of the City, and the Andover Newton Theological School (1825) at Newton Centre.

Newton also has a splendid playground system which has developed tremendously within the last decade. There are now many beautiful spots which have been turned into playgrounds for the young. These playgrounds are in the charge of very efficient young men and women and the children are taught all sorts of healthful games, while other educational opportunities and interests are encouraged and promoted.

The Public Library

Another important factor which cannot be disassociated from the school room is the Newton free library. This was organized in Sept 1869, and received the property of its sponsors, the Newton Library Association. In 1875 the stockholders of the association transferred the entire estate to the City of Newton. The location of the building is on Centre Street, the ancient main thoroughfare of the town. The Newton Li-

brary contains 268,085 reference books of all periods, and is continually adding to the collection. There are valuable reference books of all periods, as well as works of old and new fiction. There are also many beautiful and rare prints. There are now branch libraries in ten sections of Newton, the most recent one being that established in Oak Hill Park.

Church and Social Activities

Church influence is strong in Newton, many social and welfare activities also centering in the church organization, of which there are forty-six in the city. The first church was organized in 1633.

There are over one hundred forty clubs and fraternal organizations in the city, a Federation of Woman's Clubs, Kiwanis, Lions, Rotary and the Newton Chamber of Commerce.

Growth

History shows that the different parts of Newton have made rapid strides in development. In 1860 Nonantum Hill had only the Ricker family on its massive western shoulder. The greater part of it consisted of scrub oak, a lonely and desolate tract of land. Early in 1800 Newton Lower Falls was a tranquil little village with but ten resident families. In 1872 the village had risen to 940. A little later the village of Newton Highlands was not much more than a cross-road settlement in a region of farms. Nearby were shops of the blacksmith and wheelwright. But today Newton is a great modern city teeming with activities, ever growing, ever expanding.

Business Activities and Opportunities

Although Newton is widely known as a residential city, it has various manufacturing activities. In Newton there are machine shops, and factories engaged in electronics, the manufacture of fire alarm systems, silk, worsted, plastics, paper boxes, railway signals, knit goods, etc.

Information regarding manufacturing opportunities, business facilities and residential advantages will be supplied on request by the Newton Chamber of Commerce, 1171 Washington Street, West Newton, 65 Massachusetts.

Information About the Newton Free Library Newton, Massachusetts

Newton, Mass., is a residential suburb which has long had a vital interest in providing high standard educational and cultural opportunities. In comparative statistics among cities of its size, Newton has high standing in public library resources and their use. In round figures this city of 87,000 population has a book collection of over a quarter of a million volumes, an annual book circulation of well over three-quarters of a million (810,570 volumes in 1954), has ten branch libraries and strong reference facilities. The City appropriation for 1955 was \$244,103.00 for the operating budget and the Library receives about six thousand dollars a year for books from endowment funds. In annual book circulation to the public the Newton Library is third among all city libraries of Massachusetts and ranks among the first three for cities up to 100,000 population in the United States.

Historical

The New England colonists were much concerned that they should have educated ministers, leaders, citizens. For this reason, schools, colleges, public libraries, institutions of learning were a natural outgrowth of the people's interest. Horace Mann of Newton did much to establish high standards in public education. The beginnings of the Newton Public Schools and the Newton Free Library can be traced back to the ideals of the early colonists. To an unusual degree the Newton Free Library was built up through the voluntary interest of citizen groups. It is a characteristic of the New England village pattern that in the village center there should be the church, the school, a public library, the town hall, a village green. Newton grew from a collection of eleven villages; the citizen groups of the larger villages all built a branch library by public subscription, given by them to the City which accepted the responsibility for maintaining and operating the same. The original section of the Main Library was also erected and given to the city by a group of interested citizens.

The Newton Free Library cooperates with the Newton Public Schools. It has a special department which lends collections of books to elementary school classrooms. It also supplies supplementary reading and reference services to the junior and senior high schools of the City, although they have school libraries of their own. Newton is in the center of numerous colleges; a high percentage of its young people are college students, and the reference and book services, especially of the Main Library, are used by many college students. The range of library users is from the pre-school to the retired, from the well-educated to the beginning learners. The ideal of the Librray is that education, broadly speaking, is a life process, that books, periodicals, informational material and the ability to read opens a wide field for self development which is to the advantage of the individual citizen and the community. Music records, story hours for the children, library halls for lectures, meetings, discussion groups, exhibits, displays are part of the educational program of the modern public library.

Operation of the Library

The Newton Free Library has a Board of Trustees appointed by the Mayor of the City with the approval of the Board of Aldermen. There are five members of the Board, all prominent Newton citizens interested in educational matters and good government. Their responsibility is the general oversight of the Library, supervising the expenditures of funds, being consulted on planning and administrative matters, the details of operation, the carrying out of plans is delegated to the Librarian and his staff. The annual Library Budget has to be approved by the Mayor and the Board of Aldermen. Bills and payrolls are paid through the customary City business procedures, as the Newton Free Library is the Library Department of the City of Newton. The Treasurer of the Library Board is the custodian and administrator of approximately fifty thousand dollars in endowment funds left to the Library. Library accounts are audited by the Massachusetts State Auditors. Over one thousand dollars a month are returned to the City Treasury from Library fines and collections. The City Buildings Commissioner is in charge of the repairs to the Library buildings and new construction. Library grounds are looked after by the Forestry Division of the Street Department. It is a combination of citizen interest and of municipal support that has built up a strong Library System in Newton.

Trust Funds, April 1, 1949

Kenrick Fund, \$4,000 income for needy and worthy poor of Newton

Read Fund, \$40,000, income to be expended as follows:

Annual picnic or sleigh ride for children of the village of Newton Corner not to exceed \$400; for free lectures on scientific subjects for the village of Newton Corner not to exceed \$800; for books for Newton Free Library at Newton Corner, not to exceed \$600; balance of income to poor widows in any part of Newton.

Income to be used in whole or in part to stimulate in the pupils of the public schools of Newton the study of American history, especially the early history of Massachusetts and the beginning of New England, by the offer of a prize or prizes annually for essays written by the pupils of the public schools in Newton for the current year in which such prizes are offered, and upon such subjects as may be appointed.

John C. Chaffin Educational Fund

The income of said fund shall be paid out by the City Treasurer as directed by said Trustees in expenditure for the benefit of graduates of the Newton High School or of any school of a similar standard that may be established in said Newton, who have a thirst for knowledge and are anxious to obtain the benefits of an education at a college or the Massachusetts Institute of Technology, but are financially unable to do so.

The Horace Cousens Industrial Fund, July 1, 1947, \$1,000,000.00

The income of said fund shall be loaned out by the City Treasurer by application approved by the board of Aldermen to residents of Newton enabling them to own their own homes at a rate of interest 25 per cent less than the current bank charges.

The Elizabeth Spear Fund, \$340

The income to be used to provide Christmas Cheer for the inmates of the City Farm.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

HOW TO USE YOUR CITY DIRECTORY

The major departments in the Directory are arranged in the following order for ready reference:

- | | |
|-----------------------------------|-----------------------------------|
| 1. INDEX TO ADVERTISERS | 4. CLASSIFIED BUYERS' GUIDE |
| 2. INTRODUCTION AND MISCELLANEOUS | 5. CLASSIFIED BUSINESS SECTION |
| 3. ALPHABETICAL SECTION | 6. HOUSEHOLDERS' AND STREET GUIDE |

Particular attention is directed to four symbols as being important contributing factors in supplying complete information. They appear as follows: ALPHABETICAL SECTION, "h"—Householders, "r"—Resident, HOUSEHOLDERS' AND STREET GUIDE, "Δ"—Telephone Subscriber, "©"—Homeowner.
